3. Add folder and labels

Organize your alert rule with a folder and set of labels. [Need help?](#)

Folder

Select a folder to store your rule in.

 Sarah_Alerts

+ New folder

Labels

Add labels to your rule for searching, silencing, or routing to a notification policy. [Need help?](#)

No labels selected

+ Add labels

4. Set evaluation behavior

Define how the alert rule is evaluated. [Need help?](#)

Evaluation group and interval

Sarah_Evaluation

or

+ New evaluation group

All rules in the selected group are evaluated every 10s.

Pending period

Period during which the threshold condition must be met to trigger an alert. Selecting "None" triggers the alert immediately once the condition is met.
